Dear Robert, 7/19/78

Any comment on the role of the media to enlarge upon your own comment would be a larger undertaking than I can now find time for.

As I believe I indicated I have never believed that the Flynt shooting had anything to do with the JFK project. It has been and it will be - if it is not just abandoned - counterproductive.

I'd not be surprised ~~thatxit~~ if it were gangland -related, as over circulation, which has a notorious past. I'm not familiar with its present but total reform is not normal.

Good luck,
